JUDGES COMMENTS:

Two superb Anglo Nubian adult males of excellent breed type, conformation and condition. A real credit to their owner/breeder.

Best milker and BIS, Imported Chaviva, a 1st Kidder, good bone and structure in superb condition, with lovely soft well attached udder, who milked enough. Reserve best milker, also a 1st kidder, good type, well attached udder and good milk yield, but was just lacking in show bloom and condition to hit the top spot! Some good milk yields.

Three herds stood out for breed type, quality, conformation and show condition, they were the Mineshop, Emmadell and Sandell herds, which obviously influenced my placings. The Emmadell and Sandell herds very strong team of youngstock were absolutely beautiful to see.
